CONSTRUCTION NOTICE: EDWARD STREET RECONSTRUCTION – WATER SERVICE

Project update:

Please be advised that the contractor for the Edward Street Reconstruction Project, **North Rock Group Ltd.**, is in the process of installing a temporary watermain along Edward Street, Rupert Avenue and Harold Avenue. This work is required to facilitate construction of the new watermain along Edward Street. As a result, a temporary water service will be connected to your property via the outside hose bib where accessible. Once the temporary watermain and services are working, the contractor will install the new watermain and services along Edward Street. This work is expected to begin the week of 21st October 2024 and is anticipated to be completed by mid-December.

What's next:

The contractor may be reaching out to you for access to your outside hose bib or may request that you temporarily relocate your vehicle when making the final water service connection.

What residents can expect:

The water to your property may be shut-off as required during this work but you will be notified ahead of time. Early next year, the contractor will start on the Sanitary and Storm Sewer and services along Edward Street.

Note: Visit <https://www.cometogetherws.ca/edward-street-improvements> for project details.

The Town appreciates your cooperation and patience during this construction period.
