## CONSTRUCTION NOTICE: EDWARD STREET RECONSTRUCTION

### Project update:

Please be advised that the Town of Whitchurch-Stouffville has awarded the Edward Street Reconstruction tender to **North Rock Group Ltd.** The work consists of improvements to storm drainage, sanitary sewer, watermain, road, sidewalk infrastructure and streetlighting. Work is expected to begin this late summer 2024 and is anticipated to continue for the remainder of the construction season. The work will extend from Main Street to northern extent of Edward Street at Millard Street.

### What's next:

In preparation for the work, the Town has retained the services of **Englobe Corporation** to conduct pre-construction condition surveys of private residences. This survey will be conducted at no cost to you and is intended to document the existing exterior and interior (interior survey with Owner permission) structural condition of Edward Street residences. Englobe will contact residents shortly.

Additionally, the Town has retained the services of CIMA+ to provide full time site inspection services once construction activities commence.

### What residents can expect:

Locators from each buried infrastructure owner will come out to locate the buried lines and cables so that the contractor can work safely.

Any planned disruptions to driveways access or Town services will be communicated in advance. Please label your trash and recycling containers as the Contractor may be required to move these containers once work is underway. The Town is not responsible for damage or loss to privately-owned appurtenances located within the public road right-of-way. Please ensure that any such appurtenances are removed prior to construction. Traffic disruption is anticipated during construction and all required traffic control measures will be followed during the project.

### Sump Pumps:

Sump pumps that exit the house below the ground and are unable to be disconnected will be reconnected where feasible to the field drain system during construction. Please notify the Town if your property is serviced by sump pump. Project contact information is included on the next page.

**Note:** Visit <https://www.cometogetherws.ca/edward-street-improvements> for additional project details.

The Town appreciates your cooperation and patience during this construction period.
