NOTICE OF CONSTRUCTION: 2026 ASPHALT ROADWAY RESURFACING

Background:

As part of the annual Asphalt and Resurfacing program, the Town's contractor, Peltar Paving & General Contracting Company Ltd., will soon begin work in the areas listed in the table below to replace existing asphalt roads. The work will generally include asphalt removal, gravel base reshaping and compaction, new asphalt placement, and driveway and boulevard restoration, as necessary.

Timeline:

Work is anticipated to begin the week of July 6, 2026 and conclude by October 31, 2026, subject to weather conditions, contractor scheduling, and material availability for the roads listed below.

2026 Asphalt Roadway Paving and Resurfacing		
Road Name	From:	To:
Lady Diana Court	West Park Boulevard	Marilyn Avenue
Cedar Ridge Road	Wilderness Trail	Sherrick Drive
Ironwood Crescent	Millard Street E	Millard Street W
Geoffrey Crescent	Hemlock Drive E	Hemlock Drive W
North Street	345 North Street	Millard Street
Greenwood Road	Millard Street	Alderwood Street
Hemlock Drive	383 Hemlock Drive	Gabrielle Mews
Hoover Park Drive	Ninth Line	Sandiford Drive
Lakeshore Road	Highway 48	Connor Drive

Traffic Impacts:

Traffic disruptions are expected during construction. The Contractor will implement all necessary traffic control measures to ensure safety and minimize traffic delays during the construction period.

The Town appreciates your cooperation and patience during this construction period.

Frequently Asked Questions**Will roads remain open during construction?**

During reconstruction, roads will generally remain open to local traffic. However, temporary detours or periods of limited access may be required. For your safety, please follow all posted signage and directions from flag personnel.

Will I still be able to access my driveway?

Vehicle access to driveways will be maintained as much as possible. Short-term interruptions may occur when work is taking place directly in front of your property. If your driveway access will be blocked for an extended period, the contractor will notify you in advance.

What happens to landscaping or items located on Town property?

Some residents may have installed fences, irrigation systems, landscaping, or other features within Town property limits (e.g., the boulevard area). These items may conflict with construction activities.

Before construction begins, Town staff or a representative will conduct a visual inspection to identify potential conflicts. Residents will be asked to remove any affected items to prevent damage. Please note that, in accordance with Town by-laws, the Town cannot repair, replace, or reinstate features installed on Town property.

What are the construction work hours?

Construction activities will follow the Town's noise by-law, with work permitted between 7:00 a.m. and 7:00 p.m., Monday to Saturday. Work outside these hours, including Sundays and holidays, will only occur in emergency situations.

Will garbage, recycling, and compost collection continue as usual?

Yes, collection schedules will remain unchanged during construction. Please continue to place materials as close as possible to their usual location by 7:00 a.m. on your collection day.

If access is restricted, the contractor will relocate your bins to an appropriate pick-up point. To ensure your bins are returned, please clearly label them with your street address.

What happens to my driveway if it is affected by construction?

Driveways impacted by road construction will be repaired or replaced as needed to restore them to their original condition within the project limits.

Any driveway work beyond the construction area (on private property) is the responsibility of the homeowner. The Town is not involved in or responsible for private agreements related to driveway replacement and does not endorse arrangements with contractors or subcontractors.
