

NOTICE OF PUBLIC OPEN HOUSE

Lincolnville GO Station Land Use Study

DATE	Thursday, October 10 th , 2019
TIME	5:00 PM – 8:00 PM
LOCATION	Leisure Centre – 2 Park Drive South, Stouffville, ON

PURPOSE OF THE STUDY

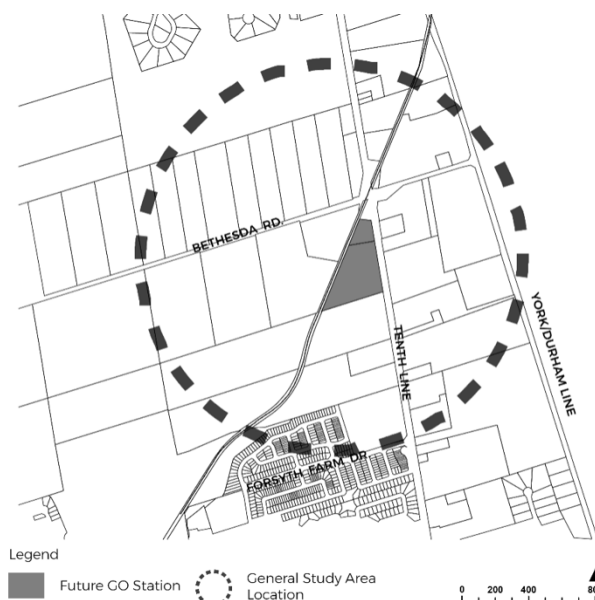

The Town of Whitchurch-Stouffville has initiated a Land Use Study for lands in the vicinity of the future Lincolnville GO Station Area in the community of Stouffville. The purpose of the Land Use Study is to identify appropriate land uses, policies and guidelines to guide future development within lands near the Lincolnville GO Station.

PURPOSE OF THE PUBLIC OPEN HOUSE

This is the second Public Open House being held for the study. The main purpose of this Public Open House is to obtain public input on concepts and ideas about how land use and development should look around the future Lincolnville GO Station. A series of development concepts will be presented to facilitate discussion about the location and distribution of different types of land use and development types across the study area. The public will have the opportunity to review and mark up concept maps, make suggestions and provide input on what they would like to see. The public will also be able to ask questions of staff and the consulting team.

STUDY AREA

The Study Area includes lands within about 800 metres of the Future Lincolnville GO Station, as shown in the map below.
