### WHY Stouffville:

Working for the Town of Stouffville means being a part of one of HRD Canada's Best Places to Work. Here, we foster a sense of belonging as a tightknit workforce. The Town is dedicated to supporting its employees, by providing competitive compensation, OMERS Pension, employer funded benefits, paid vacation, sick time, EAP and flexible work arrangements, to help you prioritize what matters most.

Working with the Engineering and Public Works team at the Town is a practical and collaborative experience. Bring your design/construction/inspection knowledge and the mud on your boots along with your people skills and passion for Engineering and we will provide you with the opportunities only a smaller town can provide; from working with the Engineering and Public Works department to the Community Services department and working with Council (with the support of your manager of course), you will be part of a cross-functional team where there is never a dull moment. You'll wear many hats (hard hats provided) and get exposure to a wide variety of work and development opportunities.

We are committed to being an equal opportunity employer, supportive of an inclusive, barrier-free recruitment and selection process and as we grow, it's important that our workforce reflect the citizens we serve. At the Town, we respect, encourage, and celebrate our diversity. If contacted for an employment opportunity, please advise if you require accommodation.

### Position Purpose:

The Engineering Technologist is part of the Development Engineering team and reports directly to the Manager, Development Engineering. This role has a broad range of responsibilities, including but not limited to coordinating and administering both large and small site alterations, assisting with bringing illegal site alterations into compliance, as well as undertaking development review of development applications. This position will also review environmental studies, coordinate traffic studies and review the traffic component of development applications, inspection of sites as well as other duties assigned to support the Development Engineering team.

### Qualifications and Requirements:

- 3 years Civil Technology Course at Community College or equal
- 5 years' experience with transportation planning and design
- 3 years' experience administering and overseeing site alterations, including site alteration By-Law enforcement
- Ability to read and interpret civil engineering drawings and grading
- Working knowledge of O. Reg. 406/19: On-site and Excess Soil Management
- Well defined analytical, reasoning and report writing skills
- Computer literacy utilizing word-processing, spreadsheet, presentation and database software in an MSOffice environment, the Internet, email, AutoCad and SWM Programs

- Class G Driver's License in good standing and reliable vehicle to use on corporate business
- Availability to attend evening and/or weekend meetings or other events if required
